

May 2022 Bunker Adjustment Factor (BAF) Rates

Dear Customers,

You can find effective BAF surcharge levels for May 2022 in the following.

Depending on the BAF methodology, April 2022 is considered on the calculation for the following regions due to high bunker price volatility that exceeds 25 USD/ton during the month. All corridors related to Mediterranean-West Africa trade regions will be based on the average VLSFO price of Rotterdam and Algeciras. For all Intra-Mediterranean and Black Sea corridors, we will continue to consider Piraeus and Istanbul average VLSFO prices. Antwerp/Rotterdam average VLSFO prices will proceed to take part as usual in the calculation of all North Europe corridors.

Regions	Reference Ports	March 2022 Ave VLSFO/ton
WAF	Average of Rotterdam and Algeciras	\$916
MED	Average of Istanbul and Piraeus	\$1.065
NEUR	Average of Rotterdam and Antwerp	\$888

For identifying the trade corridors in respective countries, we have included the below chart for your easy reference. An addendum that shows the port and country information with regional details was also included on the last page.
